nutrients to deepest layer of epidermis. Non-greasy sensoriality. Suitable for dry skin.

Plant-derived lipid with restorative and skin-soothing properties. It has also barrier-repair properties.

It contains high amount of unsaturated fatty acids with the predominance of omega-6 acids and large amounts of vitamin E. It has outstanding regenerative properties and is an effective product to regulate the moisture and restructure of skin. The oil also has an inhibitory effect on the free radicals which form and prevents them from becoming active and therefore the membrane from becoming oxidized. It adds shine to hair while restoring natural softness and silky. Vitamin A derivative: increases cell renewal, skin elasticity and the collagen in the dermis. Is involved in keratinization control and prevents conjunctive issue degeneration.
