FERULIC PEEL STEP 1 - M

DESCRIPTION

Antioxidant-rich peel ideal for those who desire improvement in clarity, texture and elasticity. Boosted with illuminating Ferulic Acid - One of the most potent antioxidants nature can produce- your skin will look brighter and feel softer. STEP 1. After tolerating this peeling we suggest you continue your treatment with our more concentrated ferulic acid peel (NEF241-2).

| % | ACTIVE INGREDIENTS | FUNTIONS |
|--------|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5 | MALIC ACID | Alpha hydroxy acid that is used as a skin peeling agent to help rejuvenate skin, remove dead skin cells and unclog pores. |
| 5 | CITRIC ACID | pH regulator, sebum regulator, antibacterial |
| 4,5 | LACTIC ACID | Moisturizer. Humectant. Improves smoothness and softness of the skin. |
| 2,5 | FERULIC ACID | Antioxidant that neutralizes free radicals responsible for oxidative stress in the cell membranes and DNA. Reinforces the effects of vitamin C and E |
| 1,25 | SYNTHETIC FLUORPHLOGOPITE | |
| 0,0248 | RETINYL PALMITATE | Vitamin A derivative: increases cell renewal, skin elasticity and the collagen in the dermis. Is involved in keratinization control and prevents conjunctive issue degeneration. |
