

NEF259

WHITENING PEEL KHR COMPLEX 2% AS UE

DESCRIPTION

A blend of potent acids that achieves high results in despigmentation. It is used in the treatment of skin discoloration disorders such as hyperpigmentation and melasma. It also works as an exfoliant to remove dead skin cells that have been aggregated on the skins surface area to help diminish fine lines, wrinkles, pores and other aging signs to improve the appearance and texture of the skin.

%	ACTIVE INGREDIENTS	FUNTIONS
34	GLYCOLIC ACID	Alpha-hydroxy-acid with exfoliating properties. High penetration capacity. It also induces epidermal cells proliferation and acts as an antioxidant.
10	CITRIC ACID	pH regulator, sebum regulator, antibacterial
9,999	LACTIC ACID	Moisturizer. Humectant. Improves smoothness and softness of the skin.
5	KOJIC ACID	effective lightener (derived from rice) that helps fading spots by retarding excessive melanin production.
2	SALICYLIC ACID	Keratolytic, sebum regulator, bacteriostatic.
2	HEXYLRESORCINOL	Powerful antioxidant with whitening and anti-spot capacity. Modulates melanogenesis safely and effectively.
0,5	ASCORBYL GLUCOSIDE	Stable form of vitamine C. Excellent antioxidant. Collagen production and antiaging functions. Reduces the melanin synthesis. Lightening & brihtening. Reduces fine line wrinkles. Sun damage protection and repair.
