

FLORIDA PEEL

DESCRIPTION

Moderate peeling combined with moisturizing agents. It reduces the appearance of dark spots and hyperpigmentation. Contains hydroxyphenoxy propionic acid, a non-toxic derivative of hydroquinone, to reduce melanin transfer to skin cells in all the layers of the skin. The formula also includes 13% salicylic acid to enhance exfoliation of dark spots at the skin surface and enhance penetration of the active ingredients.

%	ACTIVE INGREDIENTS	FUNTIONS
14	SALICYLIC ACID	Keratolytic, sebum regulator, bacteriostatic.
12,6	LACTIC ACID	Moisturizer. Humectant. Improves smoothness and softness of the skin.
10	CITRIC ACID	pH regulator, sebum regulator, antibacterial
5	AZELAIC ACID	Antibacterial, tyrosinase inhibitor acting as a whitening and brightening agent. Keratinization normalizer. Antioxidant.
3	KOJIC ACID	effective lightener (derived from rice) that helps fading spots by retarding excessive melanin production.
1	HEXYLRESORCINOL	Powerful antioxidant with whitening and anti-spot capacity. Modulates melanogenesis safely and effectively.
1	HYDROXYPHENOXY PROPIONIC ACID	Reduces skin hyperpigmentation. It protects cells from damage caused by UVB radiation and reducing the release of inflammatory agents.
