

## THE CONTRACT MANUFACTURER

### Welcome to Neftis Laboratorios

Quality, security and improvement for your product development and manufacturing

Neftis Laboratorios is a Contract Manufacturer born in 2005 from cosmetic and pharmaceutical activities developed for pharmaceuticals from 1994.

All these years of experience have helped us develop, formulate and manufacture professional cosmetics and Medical Devices as well as providing the corresponding technical and documentary support according to the latest regulations from each country.

Equipped with the latest up-to-date facilities and equipment, we are ready to provide the latest formulations under GMP regulation, either for standard formulations as well as bespoke preparations when required.

Our qualified staff are continuously improving and updating their knowledge to attend to the constant advances in the sector.

With all these qualities, Neftis Laboratorios is the ideal partner for companies searching for quality, security and improvement in their product development and manufacturing.

## MEET US!

### STEP 1 PROJECT DEFINITION

**We are big fans of our clients**  
We admire them and we believe in them

The knowledge phase of their project is therefore key to developing the cosmetic product that is the best fit for their brand's values.

**Sales advice**  
We support brands all throughout the process

The sales and customer service team supports the client during the product formulation, production and packaging process, and is at the client's side the whole time to answer any questions.

### STEP 2 CHOOSING THE FORMULA

**Suggested formula**  
The R&D team makes the formula proposed by the client.

**Standard product**  
We have a vast catalogue of over 300 cosmetic formulas designed by our R&D team.

**New creation**  
The client chooses all components of the cosmetic product; active ingredients, colour, scent, texture and packaging.

### STEP 3 DESIGNING THE COSMETIC PRODUCT

**Formula**  
The R&D team has over 15 years' experience in developing standard and custom-made cosmetic formulas.

**Packaging**  
Our purchasing department researches and studies the most suitable packaging for the individual project, supporting each and every client in finding the most suitable, functional, compatible and cost-effective solution for their formulations.

**Quality control**  
The quality control team carries out the relevant analyses to ensure the product is delivered in perfect condition.

### STEP 4 DOCUMENTATION & REGULATORY

**Regulatory services and quality assurance unit**  
Quality assurance and regulatory specialists guide brands all throughout the documentation and product registration process.

### STEP 5 PRODUCTION

**Primary and secondary packaging**  
We have teams and qualified personnel to package the widest possible range of formats, from primary packaging to the most custom-made, highly specialised packaging.

**The cosmetic products are prepared for final distribution**  
The final output is a finished product that is sent to our client's warehouse, ready to be distributed and sold.

THESE ARE THE PEOPLE  
WHO MAKE IT ALL  
HAPPEN  
:)
